

# Accelerate Your Academic Research Career with Specialized Certificate Programs

## Certificate in Clinical Effectiveness

Enhance your research expertise and impact with the Certificate in Clinical Effectiveness. This program is designed for physicians and clinical doctorates, including MD, DO, DPT, PhD, and PharmD, and those currently enrolled in a doctoral program.

### **Program Highlights:**

- Develop strong methodological skills for clinical outcomes research.
- Gain competency in designing and conducting clinical and observational studies.
- Evaluate clinical epidemiology or research projects of clinical or public health significance.

### **Program Requirements:**

- Minimum of 15 credits including two core courses and three additional elective courses.

## Certificate in Health Equity and Disparities

Gain an in-depth understanding of health disparities and the social determinants of health with the Certificate in Health Equity and Disparities. This program is ideal for people with a master's or doctoral degree, or those currently enrolled in such programs, including MD, DO, DPT, PhD, and PharmD.

### **Program Highlights:**

- Gain knowledge on health disparity and social determinants of health.
- Develop interdisciplinary skills to assess health disparities.
- Address the impact of social determinants on clinical outcomes and population health.

### **Program Requirements:**

- Minimum of 15 credits including three core courses and three elective courses.
